

Insulated Panel Color Chart

SIGNATURE® 300 Premium Colors | KYNAR 500®, HYLAR 5000®

SIGNATURE® 200 Standard Colors | SILICONIZED POLYESTER

TEXTURED FINISH® Colors

- Color shown may vary slightly from the actual color. Please call IPS for a metal color chip to verify color selection.
- Polar White is a Straight Polyester.
- For the most current information available, visit our website at insulated-panels.com.
- See product selection chart for gauge and color availability.
- Heavier gauges, narrower widths, striations and embossing minimize "oil canning."
- All Signature® 300 are low gloss colors.
- A 25-year limited paint warranty available for all colors upon written request. (Outside the continental United States, please inquire.)
- Final color selection should be made from actual color chips.
- Signature® is a registered trademark of NCI Group, Inc. KYNAR 500® is a registered trademark of Arkema, Inc. HYLAR 5000® is a registered trademark of Solvay Solexis.

Your Design EVOLUTION

Insulated Panel Profiles

Signature® 300 is a fluorocarbon paint system formulated with 70% Polyvinylidene Fluoride (PVF2) RESINS. Fluorocarbon products use either HYLAR 5000® (a registered trademark of Solvay Solexis) or Kynar 500® (a registered Trademark of Arkema, Inc.) RESINS. The Long-life finish offers the ultimate in color retention, film flexibility and durability and is highly recommended for architectural applications.

Signature® 200 is a Modified Silicone Polyester paint system. These coatings offer excellent fade and chalk resistance along with good weathering characteristics for the commercial, industrial and institutional markets.

USDA WHITE is a paint system approved for use in food processing applications.

TEXTURED FINISH is a 100% acrylic based textured coating that is spray applied directly to the exterior metal skin of the insulated panels to produce a stucco-like surface. The product is offered on the IPP, ESP, ABP and EWP wall panels.

WARRANTIES

Signature® 300 and Signature® 200 coatings are each warranted under exposure to normal atmospheric conditions for a period of 25 years. The Textured Finish offers a 10-year warranty covering color change and coating delamination.

Certain color selections are readily available while others may have a special lead-time. Special color-matched material is available with minimum quantity requirements. An actual color sample must be provided for an accurate duplication. Lead times for special color material will take longer than normal. Contact IPS concerning availability of color/gauge combinations.
